

### NON-TRANSDUCED NK CELLS

Non-transduced NK cells can be used for transduction CAR constructs. NK cells can be used from different donors.

Non-transduced NK cells can be used for transduction of lentivirus with different CAR constructs and used for cytotoxicity assays

#### DATA

#### Hela-CD19 cells

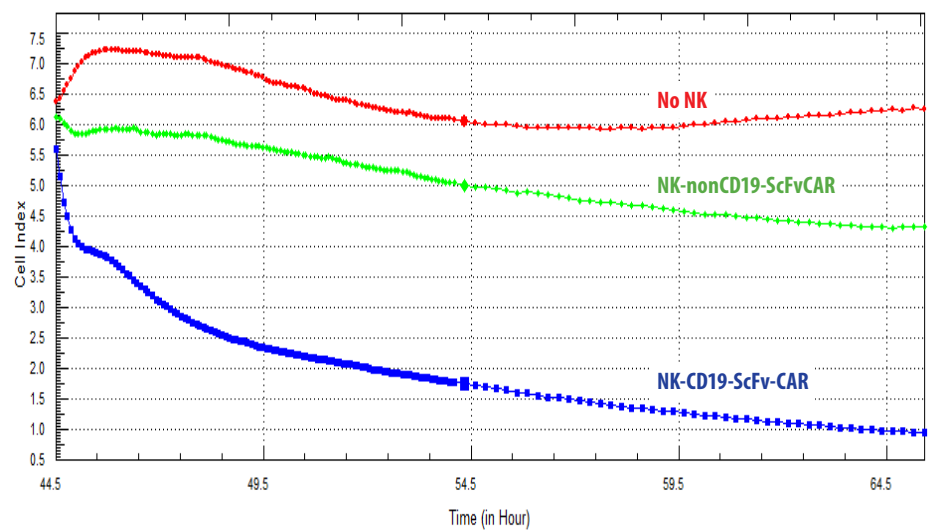

Figure 2. Real-time cytotoxicity assay with Hela-CD19 target cells and CD19-CAR effector NK cells.

#### DELIVERABLES

##### CD19 NK cell (CD19-28-ζ) NK cell Prices

Available Cell Numbers	Price	Catalog Number
1x10 <sup>6</sup> cells	\$1,000	PM-NK 1002-1M
2x10 <sup>6</sup> cells	\$1,500	PM-NK 1002-2M
1x10 <sup>7</sup> cells	\$4,000	PM-NK 1002-10M
1x10 <sup>8</sup> cells	Please inquire	PM-NK 1002-100M
1x10 <sup>9</sup> cells	Please inquire	PM-NK 1002-1000M

#### Products and Services

- Mouse Monoclonal Antibody
- Rat Monoclonal Antibody
- Human Antibody
- Hybridoma Sequencing
- Polyclonal Antibody
